FIVE CENTS THE COPY

MORE RAILROADERS TO WALK OUT

307 HOMES FEEL
RED CROSS CARE
IN SIX MONTHS

Annual Report Submitted
By Secretary Friday;
Transients Aided.

HOMES ARE PROVIDED

Girls, Widows and Waifs
Find Friends Through
Agency of Office.

Charitable assistance has been rendered to 307 families in Pontotoc county and to 129 transients since January 1, this year, by Pontotoc county chapter of the American Red Cross, according to a combined annual and semi-annual report made public today by Mrs. Orville Sneed, secretary.

During this time, the organization has spent \$391.95 for rent, \$1,266.59 for groceries, \$342.02 for merchandise, \$210.50 for drugs and hospital comforts, \$325.63 for fuel, and \$168.80 for railway fare.

These items by months were as follows:

	Rent	Groceries	Mdse
January	\$ 47.75	\$255.85	\$101.61
February	104.20	340.95	46.13
March	45.00	287.18	75.82
April	49.50	154.73	6.45
May	74.00	138.00	9.61
June	34.50	89.83	2.40
Drugs, etc.	Fuel	R.R. 1	
January	\$ 16.95	\$109.17	\$ 69.34
February	63.20	80.77	22.60
March	62.85	66.64	23.34
April	40.60	27.05	19.11
May	16.00	39.55	29.50
June	10.90	2.45	4.87

No estimate could be made by the secretary on the value of second hand clothing which has been distributed to needy cases during this time.

Two girls have been sent to maternity homes and one to the state industrial home. Several children have been placed in good homes.

Transient Problem Big

"Employment conditions have made the transient problem hard to handle," Mrs. Sneed's report said. "This is much improved now, however. Our office has secured employment for many and we appreciate calls from those who want help."

"We were fortunate in placing one or our worthy widows and seven children at the Page widow's colony at Sand Springs, Oklahoma. She and her children who are old enough have work and all are doing well. Only last week we placed a fine little 13-year-old boy who had bummed his way from Clovis, N. M., in the home of Mrs. Bruno Mayer. His relatives were out of employment and unable to care for him."

In connection with this detailed report, Mrs. Sneed issued her annual report for the year ending June 30, 1922. It follows:

MRS. ORVILLE SNEAD,

Executive Secretary

*** Relief Sent for Guards.**

(By the Associated Press)

JEFFERSON CITY, July 14.—The 120 officers and men of the 128th field artillery, who entrained at Sedalia today under sealed orders, are en route to Poplar Bluffs to relieve the St. Louis troops sent there yesterday. Adjutant General Rountree announced here. The St. Louis troops are being relieved so they can proceed to Nevada, Missouri, for their summer encampment, it was explained.

Three Oil Men Missing at Muskogee

Band of 200 Searchers Takes into Country, Hoping To Get Trace of Friends Who Now Are Believed Victims of Murder Plot.

(By Associated Press)

MUSKOGEE, July 14.—More than two hundred men accompanied by peace officers are searching the country south of Morris, eight miles east of Okmulgee, this morning to find Bill Johnston, drilling contractor, Charles Roberts, rig contractor, and Charles Stout, tool dresser, who have been missing since last night, when they left home to go to a pond six miles south of Morris to catch turtles.

A rumor which City Marshal H. B. Stidham of Morris says he has been unable to trace to its origin is that the men were shot to death. No trace of the bodies has been found and in the territory the searchers have covered no signs of struggle have been discovered.

According to Marshal Stidham the report is that a telephone message received at Morris announced the death of the men.

BETTER TEACHER SAVER OF MONEY

Many Pupils Must Repeat
Work Taken Under a
Poor Instructor.

In a report intended to show the advantage and economy in hiring well trained teachers, such as those who have had work in East Central Teachers College, as opposed to the less thoroughly prepared teachers, was issued Friday by County Superintendent A. Floyd.

Out of students who took eighth grade examinations in county schools this year, 103 were under teachers who hold state certificates. Of this number, 88 passed. Sixty seven students studying under holders of first grade certificates took the examinations and 55 passed. Fifty-one pupils under teachers with second grade certificates tried the examinations and 44 passed.

Only 14 students under holders of third grade certificates tried out and four were successful.

Reduced to percentages, the report shows that 85 per cent of the pupils who were under state certificate teachers passed. Other percentages of successful students, with the kind of certificates which their teachers held, are as follows: 82 per cent under first grade certificate holders; 66 2-3 per cent under second grade certificate holders, and 28 4-7 per cent under third grade certificate holders.

This, according to Floyd's statement, proves that almost 72 per cent of the students trained by third grade certificate teachers failed and must take the work over, causing additional expense to the county and waste of time to themselves.

"I have watched the situation closely and this rule carries throughout the county," Mr. Floyd declared. "It will also apply in the lower grades."

'Navaho' Meteorite Draws Interest of Leaders in Science

CHICAGO, July 14.—Both scientists and the general public are showing interest in the "Navaho" meteorite, which has just been placed on exhibition at the Field Museum of Natural History. This meteorite is one of the largest that has been discovered in recent years. It is solid metal and weighs 3,306 pounds. It was found near Navajo, Arizona, about one hundred miles from the point where the Canyon Diablo fall of meteorites was discovered.

This meteorite apparently was known to the Navaho Indians who entered Arizona several hundred years ago. The Indians covered the meteorite with stones so that no other Indians or white men could find it, as they considered it sacred. It was located recently on government land. The finders staked a mining claim around it and finally sold it to the Field Museum by the pound. Scientists who have examined it say it differs in several ways from the Canyon Diablo meteorites. The mass of metal is about 33 inches long and 26 inches high. It is partly split open on one side. There are some marks made with tools, which are thought to be of prehistoric origin.

MARS HAS SNOWS?

Astronomers Think Now That
Red Planet Also Is Productive.

(By the Associated Press)

FLAGSTAFF, Ariz., July 14.—Members of the staff of Lowell Observatory here are elated over recent studies of the planet Mars which, they assert, bear out the theories of the late Percival Lowell, founder of the observatory, as to snowfall and vegetation on the little red planet. Mars, nearest neighbor of this world with the exception of Venus, is closer to the earth now than at any time in 18 years. Observations have been in progress for the past five months each hour of every night that weather conditions would permit. Hundreds of photographs and charts have been made.

Seasons on Mars have the same significance as on our earth and occur in the same manner, but are about twice the length of our own, according to Doctors E. C. and V. M. Slipher of the observatory staff. A statement by them on the results of the latest observations here follows:

(Continued on Page Four)

ANARCHIST BALL MISSSES VICTIM

Three Shots Were Intended
For French President
in Bastile Parade.

(By the Associated Press)

PARIS, July 14.—Three shots were fired today at Prefect of Police Naudin by Gustave Bouvet, an anarchist well known to the police in the belief that it was President Millerand at whom he was aiming. None of the shots took effect.

The shots were fired while the parade was passing along the Champs Elysees at the corner of the Avenue Marigny. The assailant shot from behind, a woman and the fire scorched her dress. He was beaten by the crowd before the police seized him.

Bouvet said to the police: "It was at the carriage of the president of the republic that I intended firing. However, I did not wish to kill anyone. I wished only to make a demonstration that would attract attention to the condition of the proletariat."

Soldiers In Review.

PARIS, July 14.—Soldiers of France from the land, sea and air forces passed in review today before President Millerand and a crowd of hundreds of thousands of persons at Longchamps courts in the annual fourteenth of July military pageant, the chief feature of Bastile day. The celebration at Longchamps passed without incident and the only disorder was outside the review grounds after the review.

ARDMORE—Fewer arrests were made in Ardmore during the month of June than in May, according to the monthly report made by Chief of Police W. R. Hightower. Out of 196 arrests made in June, there were 120 convictions and 65 dismissals, and 56 commitments, the report showed.

UNFOLD MYSTERY FOR BOY SCOUTS

First Public Initiation Is
Given By Officials in
Baptist Church.

First public initiation of candidates for tenderfoot badges in the Boy Scouts took place at First Baptist church last night before a large body of scouts and a few parents.

The ceremony opened when Scout Commissioner L. A. Ellison, R. W. Simpson, president of the court of honor, Dr. A. Linscheid of East Central College, Rev. W. E. Whitwell, Rev. H. M. Woods, Rev. C. C. Morris and J. E. Harris, members of the court of honor, and Bart Smith and John P. McKinley, troop committee men of Troop 9, marched from a side room and took their places on the rostrum. As this was done 100 scouts stood at attention and gave the scout salute.

This was followed by the appearance of Troop 9, which took its place and proceeded with the opening exercises and initiation ceremonies. Scoutmaster Harry Hamilton, Committeeman John McKinley, Senior Patrol leader Jack Conn, Scribe Stanley Dean, Color Bearer Leroy Hargis and Hoyt Pryor, Sergeant at Arms Creston Threlkeld, Patrol Leader Charles Fowler and scouts Earl Philpot and Dewey Holcomb took parts in the initiation of candidates. Those initiated as tenderfoots were:

Nine New Tenderfoots.

Wayne Wadlington Jr., Henry Greer, Stewart Linscheid, Donald Montgomery, Turner Garwood, Floyd Skillern, Henry Cathey, and Gladis Bailey.

Second class badges were awarded by Scout Commissioner Ellison to Scouts Dennis Curley, Dewey Holcomb, Donald Todd, Noble Jobe, Wyman Gatlin and Norman Allen. Mr. Ellison then awarded first class badges to Carl Coleman, Maurice Hammond, Guy Sadler, Tolan Lewis, Wesley McClure, George Kitchel, Donavan Skirvin and Henry Roach.

R. W. Simpson, president of the court of honor, awarded 40 merit badges to Scouts Lewis Thomas, Walter Turner, Clinton Van Curon, Raymond Deeke, Clifford Elliot, Maurice Hammond, Lloyd Tipton, Alvin Greer, Guy Sadler, Wesley McClure, George Kitchel, Donavan Skirvin and Henry Roach.

Mr. Simpson also presented Troop 2 of the First Baptist church with a troop flag for winning baseball and league championship in A class and Troop 8 of Hayes school a troop flag for winning baseball league championship of B class.

Following these presentations, all scouts adjourned to the lawn where they were served with ice cream.

Generally fair tonight and Saturday.

GUARD CHIEF TO START PROBE IN DENISON AFFAIR

Barton Will Make Report
To Governor Neff On
Strike Situation.

RANGER CHIEF GOES

Robertson To Keep Hands
Off Oklahoma Strike,
He Declares.

AUSTIN, Tex., July 14.—Thomas B. Barton, adjutant general of Texas, left here early today for Denison to investigate the railroad shopmen strike situation and make a report to Governor Pat M. Neff. Before he departed, he said he was not anticipating any disorder that could not be controlled by the Denison peace officers. He was accompanied by Tom Hickman, Texas Ranger captain, and will reach Denison late today. The adjutant general is making the investigation upon instructions from Governor Neff, telephoned from Dallas.

Baggage Men Quit.

TOLEDO, Ohio, July 14.—In sympathy with the striking shopmen 180 baggage handlers, mail truckers, common laborers and other workers,构成 the first shift in the union station here quit work at noon today. The other shifts, they declared, will not report for work. They say that between 450 and 500 men will be included in the walkout.

Governor Won't Intervene.

ARDMORE, July 14.—Governor J. B. A. Robertson will not interfere in the railroad strike unless the government finds the help of the state needed, he said here last night in a public address when about 500 persons heard him.

Discussing the strike, he said, "I wired to Washington before I left Oklahoma City and told them if they couldn't enforce the law in this state, I could."

The governor outlined the high lights in the accomplishments of the present administration. With friends the governor left early this morning for the city lake to fish. He will be the guest at a fish fry at noon.

Following are college men who are out of classes on the national guard encampment: Ross Wamack, Jesse Hodges, N. C. Bowen, Harvey Neely, Raymond Cox, Jimmie McCoy, Leon Hardwick, Robert Threlkeld, Claude F. Smith, Churchill Thomas, J. H. Hodges, O. M. Kimbrough, Hubert Priest, Brownell Coffman, Gilman Mackin.

"It is not at all desirable that students leave before the term is completed," Dr. Linscheid said.

BIBLE THOUGHT OF TODAY

HOW TO WIN.—Trust in the Lord, and do good; so shalt thou dwell in the land, and verily thou shall be fed. Commit thy way unto the Lord; trust also in him; and he shall bring it to pass.—Psalm 37:3, 5.

GETTING READY FOR TOURISTS.

The Good Roads Motor club is now busy with the proposition of properly equipping the tourists camping ground at the west end of Main street. Funds are being raised for this purpose and the extent of the improvements will be governed by the amount secured. It is to be hoped that enough can be collected to provide all needed comforts for campers and it will be if the public fully realizes the importance of this matter. Hundreds of people are now touring the country in cars and many of them prefer camping when possible. They select their routes with this in view and the towns with the best camping facilities get the business. It is seldom indeed that an auto stops at a place without spending some money and many towns have found this a valuable source of revenue. Not only that but many desirable prospectors travel in autos to look for good locations and right here is where Ada could get in some good work. It is not hard to interest a man in Ada if he once stops here.

Albania is said to be seeking a king, but the Oklahoman suggests that there are other occupations less hazardous. Recently it was reported that a delegation from that country had approached Jerome Napoleon Bonaparte of New York, a grand nephew of the first Napoleon, and offered him the job, but that gentleman evidently preferred to remain a plain American citizen, if the offer was really made. It was the magic name of Bonaparte that brought the offer, if it was made, and evidently the modern Napoleon figured that that would not be much protection against the bullets of the crack shots of the mountains in case they did not like his methods of rule. However, there are a lot of kings in Europe out of a job and perhaps one of them might be induced to tackle the position. Kaiser Bill, for instance.

COLONEL WATSON A JUSTICE OF THE PEACE

When statehood ushered in Col. A. P. Watson was among the winners in the first election for state officers, being one of the corporation commissioners. When his term expired he was re-elected and everything appeared to be going well with him. However, before long charges were preferred against him and in the impeachment trial which followed he was found guilty and removed from his office. After that he dropped out of the sight and mind of the public, so rapidly does the whirligig of the political world turn. A few days ago Tulsa papers carried an item to the effect that he had been appointed to fill out an unexpired term as justice of the peace at Tulsa. Verily fortune changes rapidly in the careers of some men. The man on top today is on the bottom tomorrow and vice versa.

If the parties to the coal and railroad strikes refuse arbitration we fail to see how the matters will be adjusted except by a long contest of endurance in which the entire public will suffer greatly. In the meantime the United States is losing its coal markets in South America and elsewhere and it will not be an easy matter to regain this when American mines open again. The effects of a strike last a long time after it has been settled and all parties concerned suffer accordingly.

And now they say that long skirts are to be the fashion again. One report has it that a bunch of manufactured manipulated this deal in order that they may find a market for a lot of surplus cloth they have on hand. Fashions are like the measles, just springing up suddenly apparently from nowhere and people fall in line without knowing why. Keeping up with Lizzie is a great game.

Hughes county voted down a half-million dollar bond issue for good roads a few days ago. The proposition received a majority of the votes but fell about 250 short of the required 60 percent. The problem of good roads is one that will never stay down until the state is supplied with highways that can be travelled every day in the year. Everybody wants good roads but differ on the ways and means of providing them. The present patchwork system is admitted by all to be a failure, but it is a difficult matter to get away from it.

The immense corn crop now being raised in Pontotoc county means that more livestock must be raised. With a heavy crop of corn everywhere and freight rates at their present level there is but one way of realizing on the corn to any advantage whatever and that is by feeding it to livestock and shipping that. Circumstances seem to be forcing this part of the state into the stock raising business whether people like it or not.

"Swat the demagogue," says the Chickasha Express. Very good advice but the people are not always quick enough about recognizing the earmarks of said demagogue. They are too ready to accept the fine recommendation of the demagogue gives himself when he appears before them.

AN IDYL OF HARVEST SEASON IN The GREAT NORTHERN WHEAT BELT

good Democrats have been gullible enough to swallow the thing, hook, sinker and all.

The Reconstruction league platform and its leaders are bound to fall in Oklahoma. Such untenable doctrines, diametrically opposed to every fixed institution of America will not stand so long as the people are anchored safely in the foundations of our government.

The Reconstruction league will do good, in that it will awaken a lot of political hangers-on into a realization that they have got to go before the people with clean hands and it will awaken the great mass of the laymen into taking a greater interest in politics.

Legion Post Turns Club House Saving To Assist Kiddies

MANGUM, Okla., July 13.—For two years the Paul Garrett post of the American Legion saved its dollars toward a club house. Mangum veterans were hoping for the time when they would have their own Legion home. The big day arrived recently when plans for the construction of the building were to be laid at meeting. The funds were available.

And then Dr. F. H. McGregor, post commander, arose before the gathering and explained that there was another cherished dream in Mangum—the dream of the city's kiddies that some day they would have a park to play in, a park with wading pools, and teeterboards and all the other apparatus that children love.

The legion men thought it over. Then a vote was taken as to what should be done with their club-house funds. The kiddies won. The owner of an unused park was summoned to the meeting and the Legion post leased his land for eight years. The contract was signed before the session adjourned.

Now workmen are erecting the teeters, the swings and merry-go-rounds and sinking a concrete wading pool.

And the legion is using its old quarters.

The Forum of the Press

Nation of Spenders

(Fort Worth Record)

Americans do not save systematically, at least few of them do, and many of these few lose their savings in wildcat schemes, according to a writer in the August Delineator who has dug up some statistics that are rather illuminating and very surprising to one who has given little thought to the matter.

This writer says that out of every sixty-four men who are 65 years of age or more, fifty-three depend on others to support them, and six are so poor that they have to go on working for their living. In other words only eleven men out of every sixty-four who are 65 years old are self-supporting. And of these eleven men, according to the same writer, only five have money of their own saving to live on in independence.

Then, too, there are the families of those who have failed to save for times of need, and have died leaving those dependent upon them to get along in some sort of way, have died without even leaving life insurance. Of the three million widows over 63 years of age living in the United States, one million are without the bare necessities of life and one million and seven hundred so without ordinary comforts.

This is a condition that should not exist. It shows a lack of foresight among a vast majority of the people. "Eat, drink and be merry, for tomorrow we die," would seem to be the accepted motto with most of them. Pay day is merely transfer day; the money is paid to the workers to be transferred to the creditors. Not only is nothing left, but it does not suffice to pay off the debts. And they keep on spending and getting deeper and deeper in debt.

The saving man who invests his savings in a wildcat scheme and loses it is more to be respected than the man who will not save, for he may learn after a few losses to put his savings into real investments.

He has formed some thrifty habits at least, while the mere spender never looks ahead.

If You Find Your Work Easy, Watch Out

(Forbes Magazine)

Has your work become very easy? Do you find you could do it with little effort? Has it ceased to impose any strain or fatigue upon you? Do you no longer feel loss of vitality after a long spell of it? Can you now do it as easy as water fence necessitates effort—hard, sustained. Do some stock-taking. Examine your output. Analyze your attitude towards your work. Ask yourself whether you are putting your whole self, your whole heart and soul into your job. Ponder whether you are exerting yourself to the utmost to produce the maximum results.

No work should be easy if done with all one's might and main. Every job should take it out of a man, if he expends every ounce of his energy in doing it the very best way within his power. Work done with little effort is liable to yield little result. Every job can be done excellently or indifferently. Excellence necessitates effort—ardh, sustained, concentrated effort.

So, if you are sleeping over your job, instead of sweating over it, overhaul yourself.

The Cards Fall

(Ardmoreite)

From all sections of the state comes encouraging word that the people are finally coming out of their lethargy and rallying against the so-called Reconstruction league.

It is only natural that they should. The only unnatural phase of the whole matter is that some mighty

Harry Carey's New Film "Man to Man" has Thrills and Human Interest

Harry Carey can be human enough to eclipse the thrills in any story. And that is about what he does in "Man to Man" at the McSwain theatre Saturday.

"Man to Man" is a Universal-Jewel feature based on Jackson Gregory's novel of the West.

Stuart Paton directed the star and a notable cast in the action of the quick-moving plot. He handles several scenes of a great cattle stampede with commendable skill and yet did not allow the star's characterization to be overshadowed by the thrills.

Lillian Rich has a mighty libable personality on the screen. May be that smile of hers was one reason why she became a musical comedy star after appearing with Harry Lauder on the London stage.

It has helped her to achieve considerable note in pictures. She is very appealing in the chief feminine role opposite Carey.

Charles LeMoyne and Alfred Allen do the "heavy" work in "Man to Man" with villainous skill.

Harold Goodwin and Wills Roberts handle principal roles satisfactorily, while little May Giraci, a promising child actress of foreign blood, impersonates a dusky girlie of the South Seas Isles who is taken home by the hero to get him all messed up in the eyes of the heroine.

ARDMORE—A petition, asking county commissioners to call an election regarding the erection of a proposed county hospital, is to be circulated soon. The action was taken by the Carter County Medical society following the refusal of county commissioners to ask for a vote on the proposed institution.

BE YOUR OWN SKIN SPECIALIST

Clear away every pimple, every blackhead and every other skin blemish almost like magic! Exchange muddy or rough skin for a clear, smooth, velvety one. It is delightfully easy to do. Just take two pleasant-tasting tablets of Ironized Yeast three times a day, and, in an incredibly short time, blemishes will have vanished. Ironized Yeast supplies you with certain vital elements now lacking in your food—the very elements needed to keep your skin clear and your cheeks rosy. Get a box of these remarkable tablets from your druggist today. In a short while your fresh and rosy cheeks will compel the envy and admiration of your friends. Get Ironized Yeast today. To try it free, mail postcard for Famous 3-Day Trial Treatment. Address the Ironized Yeast Co., Dept. 89, Atlanta, Ga. Ironized Yeast is recommended and guaranteed by all good druggists.

Recommended and for sale by all good druggists such as Gwin & Mays.

FINE VIEWS APLENTY IN Superb New Paramount Picture "FOREVER"

A picture that shows the strange places of the earth, without losing the gripping elements of its story is "Forever," Paramount's screen version of George Du Maurier's novel, "Peter Ibbetson," which will be displayed at the McSwain theatre next Monday. Elsie Ferguson and Wallace Reid are co-stars in this real George Fitzmaurice production.

In the dream scene Elsie Ferguson and Wallace Reid are revealed in a gondola in a Venetian canal, in an ice palace in Russia, at the circus Maximus in Rome, on the desert sands in Algeria, and at various show places in England and France.

In points of expense "Forever" is one of the foremost picture productions of the year. The sets are exact copies of the places they represent, having been made from photographs and old prints of the days about which George Du Maurier wrote. The supporting cast is one of the strongest assembled in any recent picture and includes, besides the stars, Montagu Love, George Fawcett, Elliott Dexter, Barbara Dean, Dolores Cassinelli and others.

ARDMORE—A petition, asking county commissioners to call an election regarding the erection of a proposed county hospital, is to be circulated soon. The action was taken by the Carter County Medical society following the refusal of county commissioners to ask for a vote on the proposed institution.

In Japan keys turn in their locks in the opposite direction from that customary to us.

HUGHES DECLARIES U. S. SHOULD NOT PAY ON COURT

(By the Associated Press)

WASHINGTON, July 14.—Secretary Hughes' reply today to a letter recently addressed to him by Hamilton Holt, president of the Woodrow Wilson democrats of New York, said he could see no prospect for any treaty or convention by which the United States government should share in the maintenance of the permanent court of international justice until some provision should be made by which without membership in the league of nations the American government would be able to have an appropriate voice in the election of the court's judges.

U. S. Aids Women to Solve High Cost of Her Apparel

WASHINGTON, July 14.—Uncle Sam's Department of Agriculture does work of many interesting sorts, its ramifications extend in divers directions, not solely included under the subject of agriculture, and one of the most helpful of these is aiding in the subjugation of the still high cost of clothing. A recent publication of the department declares that the business girl, with a reasonable amount of zeal and talent, can use part of her spare time to such effect that she can cut in half her clothes bill.

In the first place, says the circular, it must be granted that the important way to reduce costs is to eliminate as far as possible the items of labor and distribution. In other words, the business girl should make her own clothing, otherwise, unless she's a wizard at nosing out bargains, she stands little chance of reducing her clothing budget.

The business girl may claim, says Uncle Sam, that she has not the time or energy left after a strenuous day's work; but a skilled sewer who enjoys sewing as an interesting and profitable change of occupation can always find time and energy. In this connection, the department cites the case of a girl in a government department, who, with the aid of the circulars and extension work of the Agriculture Department, was very successful in keeping her wardrobe supplied at comparatively low cost, one-half in fact what the same clothing would have cost ready-made.

Reproduce Own Form.

To begin with, she got a department circular telling how to make a dress form by pasting layers of bunched bundle wrapping paper over a tightly fitting vest on herself as a model. When the paper casing was cut off and fastened together, she had a light, stiff and perfect re-

production of her form. So it was not necessary to purchase a store figure.

The girl reported that her latest wardrobe cost her only \$108 for clothing conservatively estimated to be worth \$210 at store prices. With the aid of her paper form she made, for \$24.61, a tan broadcloth winter coat with good lining, such as she saw priced at \$50 in the shops. A blue voile dress with a slip, cost including trimming, \$11.00. A tissue gingham dress, with organdie for trimming and also hemstitching, cost \$6.33; with scraps and a remnant she made another gingham dress for exactly 45 cents.

For \$16 she bought materials to make a pussy willow taffeta and georgette crepe dress for social occasions, which, she said, she could not duplicate in quality at a store for less than \$35. Her business dress of serge and crepe de chine would have been priced at \$40 or more if made of the good fabrics she bought for \$18.39. Her evening dress, also, of taffeta and silver lace, cost only \$21, although it was modelled after one seen at a shop at a much higher price.

This wardrobe, augmented by two dresses for which materials were bought, brought the total up to \$108.34, is not elaborate, though sufficient for the needs of the wearer, it was said, and, having a variety of clothing she was able to attend many social functions she otherwise would not have.

Without the dress form, the girl reported, it was doubtful if she could have duplicated her achievement in the time at her disposal; but she not only had time left over for other activities but also to make ten such forms for other girls to hold classes to teach many others.

SCOUT CAMPERS LEAVE FOR CAMP NEXT WEEK

Starting at about 5:30 next Tuesday morning Ada's first boy scout campers will leave for Devil's Den near Tishomingo. The cost of this trip will be from \$1.50 to \$2.50 for each scout, depending upon the number of cars which can be obtained.

Every scout will furnish his own eats. A list can be secured by calling at Boy Scout headquarters. Parents can rest assured that every scout will be well cared for as there will be plenty of men along to take care of the scouts.

AMERICAN BARGES ARE FIRED UPON AT CANTON

(By the Associated Press)

CANTON, July 14.—Two Standard Oil barges flying the American flag were fired on in the river two miles from here by troops of Yit Kue, the opponent of Sun Yat Sen, the deposed president of the South China republic. About 100 shots were fired but the barges were not damaged.

1,000 AIRPLANES HELD FOR USE WITH MAILED

(By the Associated Press)

NEW YORK, July 14.—One thousand commercial aircraft in aviation centers throughout the United States were ordered held in readiness after Postmaster General Work accepted by telephone the offer of aid in maintaining mail service made by the aeronautical chamber of commerce of America today.

ONE MINER IS KILLED IN A DYNAMITE TRAP

(By the Associated Press)

WHITESTONVILLE, W. Va., July 14.—One miner was killed and ten others injured, four seriously, today when a mine train, carrying the men to work near Mordue, ran into a dynamite trap and was destroyed. The mine, owned by the Mordue Colliery, has operated under the protection of a federal court injunction since June 1.

NARCOTICS SUSPECTS WILL BE ARRAIGNED

DR. J. A. Deen, county superintendent of health, and Jess Hays, both arrested Thursday by federal and county officers in connection with alleged violation of U. S. narcotic laws, were still being held in the county jail today. County officers said they would be taken to Coalgate within the next few days for arraignment before the U. S. commissioner.

UNION VALLEY

Union Valley is still on the map. We have just been busy.

Prospects are good for another fine crop of sweet potatoes.

There was a good attendance at Sunday school and church Sunday.

Mr. and Mrs. William Phillips of Brooken have been visiting relatives here the past week.

Lon Stephens is spending a vacation at home.

Mr. and Mrs. Ernest Crabtree of Oklahoma City are visiting Mrs. Crabtree's parents, Mr. and Mrs. W. R. Riddle.

Mrs. J. E. Young of Wapanucka was visiting her son and friends here this weekend.

J. H. Turner had the bad luck to have three sets of harness stolen from his barn last week.

Little LeMoine Bishop, of Wapanucka, is visiting his grandfather, C. M. Bishop.

Mr. and Mrs. Lee Blackwell spent Saturday night in Stonewall.

The Truck Growers' association met Wednesday night.

There was prayer-meeting at the school house Thursday night.

Robert Seek, who is visiting home friends in Frisco, was in this community Sunday after an absence of several years.

Rev. Locks and family from Texas are visiting Mr. T. U. Locks and family.

Ben Hatcher, who attended O. U.

last year, is spending his vacation at his home here.

Mr. and Mrs. Henry Boatman were visiting relatives at Lula this week.

Mr. and Mrs. Russell and family visited Mr. and Mrs. Browning Saturday night.

Azal Seel of Frisco spent Sunday with Mary Ellen Hatcher.

W. R. Riddle and son Joe went to Center Sunday.

There was political speaking at the school house Monday and Tuesday nights.

The Ausee Sandling, a mountain in Austria, is collapsing so rapidly that it is discernible.

NEBRASKA MUST RESTOCK RANKS

Congressional Race To Be Watched With Much Interest Now.

(By the Associated Press)

OMAHA, Neb., July 14.—While all three parties, the republicans, democrats and progressives, will have full slate in the field for congressional representation in all 6 Nebraska districts, following the primary of July 18, yet there will be three new faces among the national legislators no matter how the ballots are cast.

This situation follows the retirement from congress of C. R. Reaves, of the First district, to assist in the prosecution of war fraud cases; the retirement of Congressman Albert W. Jefferis, of the Second district, to become a candidate for the republican nomination for United States senator and the retirement from congressional life of Congressman M. P. Kinkaid, of O'Neill, who is not a candidate to succeed himself this year in the Sixth district.

The republicans and democrats will also have candidates in the race in the First district to fill out the unfinished part of Congressmen Kinkaid's term.

The candidates in the July 18th primary by districts are:

First District (Regular)

Republicans: Phelan A. Barrows, present Lieutenant Governor; Walter A. Anderson and R. H. Thorpe, all of Lincoln; Wilber W. Anness, of Dunbar; J. Ray Shike, of University Place; Paul Manhart of Auburn and John Hana, of Auburn.

Democrats: Frank Mills, of Lincoln; John H. Moorehead of Falls City.

Progressives: John H. Moorehead of Falls City and Abraham Lincoln Tidwell, of Plattesmouth.

First District (to Fill Vacancy)

Republicans: Phelan A. Barrows, of Lincoln; J. Ray Shike, of University Place; Paul Manhart of Auburn and R. H. Thorpe of Lincoln.

Democrats: W. C. Parrott, of Lincoln (unopposed).

Second District

Republican: Willis G. Sears and Nathan Bernstein, both of Omaha.

Democrats: Charles O. Anderson and James H. Hanley, both of Omaha.

Progressives: Roy M. Harrop, of Omaha (unopposed).

Third District

Republicans: Congressman Robert E. Evans of Dakota City; M. Havens of Norfolk and Osmond F. Byron, of Walthill.

Democrats: P. F. O'Gara, of Hartington and Edward Howard of Columbus.

Progressives: P. F. O'Gara, of Huntington; M. F. Hall, of Neligh; Edgar Howard of Columbus and John Havekost of Hooper.

Fourth District

Republicans: Congressman M. O. McLaughlin, of York; Lloyd Crocker and W. A. Ransdell, both of Beatrice.

Democrats: Irene C. Buell, of Ashland; Clifford P. Fall of Beatrice; H. B. Cummings of Seward and Fred C. Schultz of Rockford.

Progressives: H. B. Cummings of Seward and John O. Schmidt of Whoop.

Fifth District

Republicans: Congressman W. E. Andrews of Hastings (unopposed).

Democrats: Joy E. Butte jr. of Stratton; Ashton C. Shallenberger of Alma; J. S. Canaday, of Minden and Fred Hoffmeister of Imperial.

Progressives: J. S. Canaday of Minden and S. J. Franklin of Beaver City.

Sixth District

Republicans: Secretary of State Darius M. Amsberry, Broken Bow; Robert G. Simmons, Scottsbluff; Brono O. Hostetter, of Kearney; William E. Flynn of North Platte; A. R. Humphrey, Broken Bow; and William E. Shuman of North Platte.

Democrats: Charles W. Beal of Broken Bow and Don W. Lanigan of Greeley.

Progressives: Charles W. Beal, Broken Bow (unopposed).

All three parties will nominate candidates for the house and senate of the state legislature while the offices of state superintendent of public instruction, judges of the supreme court and state university regents will be nominated from a non-political ballot.

NEW BETHEL

We had preaching Saturday night by Bro. Seckinger, and Sunday by Bro. Shipman.

Mr. and Mrs. Shipman and family of Ada were the guests of Mr. and Mrs. Smith Sunday.

Miss Elizabeth Walker spent Sunday with Ethel Hopper.

Sarah and Martha Ellis spent Sunday with Francis and Blanche Rains.

Drexel Sales was seen in this vicinity Sunday.

We have had some improvements made on our school house. We also having high school.

School started Monday with a good attendance, and Prof. Brock, Norman Mitchell and Miss Winnie Cassaday, as faculty.

Mrs. Edd Ellis is visiting relatives near Jesse.

Ed. Walker was in this community Sunday afternoon.

Mr. and Mrs. Hensley of Byng were present at Sunday school.

Otherene Petty, was the guest of Miss Viola Clark Sunday afternoon.

Edd Ellis went to Coalgate on business Monday and Tuesday.

Miss Linda Morgan is on the sick list this week.

C. W. Stringer made a business trip to town Saturday.

Harrison Ellis of this community and Miss Pearl Stevens of Colbert were guests of Miss Dola Lowe Sunday afternoon.

RELATIVES SEEK NEWS OF WOUNDED IN DUBLIN FIGHTING

Above, relatives and friends of Irish partisans awaiting information about the wounded fighters. Below left, Free State car, machine gun and crew. Right, Fowler Hall after evacuation by irregulars.

Free Staters with their up-to-the-minute equipment are gradually putting down the republican

uprising against the Collins government. Scores have been wounded in the fighting in and

around Dublin and the fighting continues in the counties where the republicans are hiding.

AMERICANS HEAD WEST FOR TOURS

Pleasure Seekers Swarm By Thousands Through Fargo, in Summer.

(By the Associated Press)

FARGO, N. D., July 14.—Americans at play—many hundreds of them—are coming through Fargo in a motley procession of automobiles this summer.

They stop for night at the tourist camp in the woods overlooking the meanders of the Red River, cook their meals, sing and swap experiences about their camp fires and in the morning pass on.

They are to be found on all the national highways that thread the country and on the byroads as well, chasing romance over the next hill-top and around the nearest curve all the way from Boston, Mass., to Seattle—down to California and back across the south.

It is a far cry from these to their nomadic forbears who drove their herds over the pastures of northern Europe hundreds of years ago, but the same strange trails and new places which drove the ancestors is driving the wanderers of today.

The tourists who pass through here travel west over the National Parks highway from all the territory between Fargo and the Atlantic and from southwestern Canada and the Pacific coast states. They say they are going to Seattle, California, Yellowstone park or to New York or Washington, D. C.

But their leading motives is to be on their way—not to arrive.

60 Arrivals in Day.

In June 431 tourists registered at the camp here and on July 1, alone, 60 new arrivals dropped in, according to George G. Hatch, in charge of the camp. Most of them were headed west with their immediate objectives Custer's old stamping grounds on the Missouri river and Roosevelt's one time ranch at Medora, N. D., where the "painted hills" and petrified forests of the bad lands are to be seen.

Besides offering them the hospitality of the camp the Fargo Commercial Club provides information, road maps and the use of rest room.

Nearly all of the pilgrims are "nice, intelligent, communicative people—doctors, business men, retired merchants, lawyers," according to Mr. Hatch. "They like to ask

questions and tell you what they have seen." Persons from other walks of life also help to swell the procession.

The women folk for the greater part wear knickers or bloomers and wrap leggings or golf stockings. All of those wanderers who stop at the camp carry tents. Many are equipped with gasoline stoves while others use the brick fireplaces of the camp ground on which to cook their meals.

Most of the cars used are of the moderately priced varieties, according to Mr. Hatch, but not all. One party, traveling in two cars of the costliest manufacture came through recently. These carried a refrigerator with their equipment.

There is an air of comradeship among the tourists and between them and the caretakers of the camps. A hall serves as a presentation and introductions are dispensed with.

After supper, tourists frequently gather about the camp fires to tell of the day's experiences and fight mosquitoes, even as their shepherd forbears did centuries ago—but unless they also compare tire mileage and motors.

Camp Ground Drive Meets Big Success Committees Report

Committees collecting dues of members in the Good Roads Motor club for the purpose of building a modern camp ground here reported today that their campaign was proving 98 percent successful and was going over far beyond their expectations.

It will be continued into next week week, N. B. Stall, president of the motor club said, to give every person in the city an opportunity to contribute.

"We are not near through," Stall declared Friday afternoon. "All our workers report enthusiasm on the part of citizens for a first class camp ground—and nothing short of that."

About fifteen new members for the club have been signed up and have made voluntary contributions, it is reported.

Monks in the middle ages possessed not a single article of their own.

GIANT BALLOON

NOW UNDER WAY

New Dirigible, ZR-1, To Be As Big As Ill-Fated Leviathan, ZR-2.

(By the Associated Press)

PHILADELPHIA—A monster dirigible, the ZR-1, is being built in the aircraft factory of the Philadelphia Navy Yard. It is to be fully as big as that ill-fated Leviathan of the air, the ZR-2, which collapsed and fell flaming into the Hull River in England last summer, bringing a terrible death to more than a score of its crew. As fast as the parts are completed here they are sent to the hangar at Lakehurst, N. J., which will be the home port of the giant airship. It is expected that by next April the ZR-1 will be ready for its first flight.

This dirigible will be the first of the Zeppelin type to have been built in this country. Commander Westervelt and his associates in the naval aircraft factory are being guided in the construction of the ZR-1 by the tragedies of similar craft.

A principal difference between the Philadelphia-built dirigible and that which collapsed over Hull is the strengthening of every second dur-aluminum ring instead of every third ring as in the ZR-2. This strengthening is accomplished by tying each section of the 25-sided rings (polygons), which will make up the framework, with the strongest possible strands of copper wire. Seventy miles of such copper wire will be used, and the result, it is said, will give the framework a resistance greater even than if constructed of steel. Duraluminum is an alloy of aluminum and copper and is used because of its qualities of lightness and strength.

Assembling is Started.

The work of assembling the ZR-1 is already underway at Lakehurst under command of Commander Norfleet. Three of the ribs are erected in the hangar and the keel will be completed within a few weeks. The envelope will be 700 feet long and 85 feet in maximum diameter. It will be cigar-shaped. The cloth will be of staple-back-spun cotton one inch in thickness. A specially devised varnish will make it sun and water-proof. Nineteen balloons which will furnish the lifting power are being built in Akron, O. These will have a total gas capacity of 2,700,000 cubic feet. It is not considered likely that helium (non-inflammable gas) can be used because of the immense quantity that would be necessary.

Originally the intention was to

equip the ZR-1 with seven Liberty engines capable of developing a total of 2,100 horsepower, but navy experts are experimenting with a new type of motor, the specifications of which are not being made public, but which likely will be the type used.

When the ZR-1 is completed, experts say it will have power to cruise one-third of the distance around the world without having to descend. It will have a lifting power of 85 tons. The average speed, it is estimated, will be 50 miles an hour, its maximum 75.

Quarters for the officers and the men will be along the keelway extending almost the entire length of the ship. They will have a width of eight feet and a height of seven.

MYSTERY ENDS; THREE OIL MEN BACK IN MORRIS

(By the Associated Press)

MORRIS, July 14.—This little town was thrown into a heat of excitement this morning when a report spread that William Johnson, a well known drilling contractor, Charles Roberts, a rig contractor, and Charles Stout, a tool dresser, had been shot and killed six miles south of this city.

More than 250 men formed a searching party and scoured the neighborhood without finding any clue of violence. The men had left here last night to go to a pond six miles south of the city to catch turtles, and did not return until this morning.

They delayed their return until this morning to visit a drilling outfit that Johnson had located at Stidham in McIntosh county. Officers

say the report of their death spread through fears expressed by the wife of one of the men.

JAPAN WILL WITHDRAW TROOPS FROM SIBERIA

TOKIO, July 14.—Japan will withdraw all of her troops from the mainland district of Siberia opposite the island of Sakhalin by September 30 and will evacuate the northern half of Sakhalin as soon as satisfaction is obtained for the Nikolaiweski massacre, it was officially announced here today.

JONES CHAPEL

Crops are looking fine around here. Everyone is just about through hoeing cotton.

Mrs. Effie Jones of Lawton spent Friday night with her grandmother, Mrs. Casey.

John Norton and Lawrence Faulkenberry of Pickett spent Saturday night with Jesse Norton.

Mrs. Callie Dinwiddie of Bristow spent Monday and Tuesday with her mother, Mrs. Teel.

Little Henry Norton spent Sunday with Orval Ballard.

Bruce Casey and Opal Gwaltney attended church at Pickett Sunday.

Lee and Myrtle Norton spent Saturday afternoon with Goldie Lunsford.

Mr. Hopkins and family visited Bill Ballard and wife Saturday night.

Mrs. Casey gave the young folks a party Friday night which was enjoyed by all.

Koncia Casey of near Steedman spent Saturday night with Opal Gwaltney.

Miss Anna Norton spent Saturday night with Rosa Ballard.

Jay Pickett spent Tuesday afternoon with John S. Casey.

Mrs. C. P. Norton of Pickett spent Saturday afternoon with Anna Norton.

Miss Myrtle Williams spent Saturday night with Virgle Crump.

D. L. Lindsford and wife spent Saturday night and Sunday with relatives at Vanoss.

Quite a bunch of young folks of this place attended singing at Egypt Sunday night.—Brown Eyes.

IT KEPT HIM ON JOB SAYS OLD TIME PRINTER

Is Brimful of New Life and Energy Since Tanlac Rid Him of Troubles That Almost Wrecked His Health

"If it had not been for Tanlac I believe I would have soon been compelled to give up my work after following it for thirty years," said Joseph W. Riley, a well-known printer, of 114 N. Third St., St. Louis, Mo.

"Stomach trouble had almost wrecked my health. My food invariably formed gas and caused such severe pains through my chest I could hardly stand it. I had to live on such light foods that I became weak and run down, in fact, I was in such a bad fix I feared I would soon have to give up entirely."

"But health is what Tanlac has meant for me. Now, I can eat anything I want and I just seem to be brimful of new life and energy. I work full time every day and feel fine when night comes. There's nothing too good I can say for Tanlac."

Tanlac is sold by all good druggists.

Notice by Publication State of Oklahoma, Pontotoc County, ss.

IN DISTRICT COURT THEREOF No. 5624

Arthur Inman, plaintiff, vs. Marie Inman, defendant.

The State of Oklahoma to Marie Inman, greeting:

Said defendant, Marie Inman, will notice that she has been sued in the above court for divorce on the grounds of desertion for more than one year and must answer the petition therein filed by plaintiff on or before the 31st day of August, 1922 or said petition will be taken as true and judgment for said plaintiff for divorce and costs of this action will be rendered accordingly.

L. E. FRANKLIN, Court Clerk.

W. A. Delaney, Jr., attorney for plaintiff. 7-14-31

III BARTLESVILLE—Frank Manderville, former University of Kansas football star, will coach athletics in the Bartlesville high school next school year, according to a recent announcement by H. H. McClintock, president of the city board of education. Manderville is attending the summer session at the University of Kansas and will take up his duties here about September 1.

(SEAL) Attest:

J. C. Deaver, City Clerk, and Commissioner of Accounting and Finance. 7-14-31

Fuchsias received their name from Leonard Fuchs, who discovered this species of house plants.

It Started Something

"I have not said anything to you, but have been saying to others and have induced many to take your medicine and be convinced. May's Wonderful Remedy is correctly named. It removed stuff from me I never thought could be in a human being and I feel like a different person. The pain in my right side disappeared at once, which four doctors said would require an operation; also the bloating and indigestion." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—Gwin & Mays and druggists everywhere. Adv

FOR SALE

BIG BARGAIN—My two modern homes, one on East 14th, garage, one on East Main, one of the prettiest in the city. Will sell furnished if desired. Must be seen to be appreciated. No phone calls. Call at 728 East Main.

By P. LEIPZIGER

Wanamaker Has Birthday

Farmers' Column

By Byron Norrell

C. W. Zorn has accepted the position of salesman for the melon growers association. With the recent rains the members of the organization are expecting a big crop and with 300 acres or more planted there will be several car loads to ship out. Mr. Zorn also expects to ship peaches in car lots again this year.

In Comanche county, Tex., poultry raisers have formed an association. About 4,500 hens are the basis of the club and it is planned to ship chickens and eggs in large lots.

Sixty men attended the cotton school recently held at the A. & M. college. This is not quite one to the county but the number is sufficiently large to show that the people are taking more interest in this line of work. Perhaps the time will come in a few years when most farmers can grade their cotton as well as the buyers.

Bee keepers for the most part report a heavy crop of honey. This crop costs little to produce and generally more is consumed in this section than is produced. It has been customary to supplement the deficiency by shipments from Texas and California. More interest than usual has been taken in bees during the present season and Pontotoc county farmers are increasing their number of colonies.

HOG FEEDING

R. W. CLARK

Livestock Specialist

Hog feeding demonstrations are going well in several parts of the state. A few days ago we checked on results in Beaver county and found them to be interesting and of much value.

R. B. Hayhurst of Gate fed four lots, one on kafir alone, and one on kafir and mineral matter and one on a balanced ration with mineral matter.

All hogs were practically of the same weight at the start, except the one on kafir which was five pounds heavier than the others. The feeding covered a period of 60 days and in that time the kafir fed hog made a daily gain of 1 1/4 pounds; the kafir and mineral fed hog 1 1/2 pounds; the balanced ration fed hog 2 1/2 pounds and the balanced ration and mineral fed hog 2 4/5 pounds.

The mineral matter reduced the cost of production and increased the daily gain in every case.

The hog on kafir alone had a dry starring coat and was very nervous trying all the time to tear up his pen, and when taken out to be weighed, grabbed at every thing in his path, showing a depraved appetite. The pig on kafir and mineral matter had a better coat and was not so nervous in any respect to the hogs on balanced rations.

The hog on a balanced ration with mineral matter did the best in every way. It had a glossy smooth coat, and was very docile and easy to handle.

This demonstration is of great value to hog breeders. It clearly shows that feed determines the amount and cost of development and has a big influence on the disposition. Sows that are improperly fed will produce more or less weak pigs and lose a large number of them in spite of everything. Nervous dispositions make poor mothers. Pigs and chicken-eating habits are largely the results of improper diets. The large losses of young pigs that occur every year will not stop until the sows are properly fed and cared for.

Mr. Hayhurst was so well pleased with this demonstration that he is repeating it on a larger scale, using several animals in each lot. The work is being most carefully done in every respect, no guess work about it.

Mr. Hanly, the county agent, under whose supervision this work was done, made public exhibition of the hogs and created a great deal of interest among the school children and the farmers of the community. Other demonstrations of similar nature are being made in Beaver county and later in the season there will be a round-up, terminated with a school in which judging demonstrations will be given and rations considered and formulated and all phases of the hog business discussed.

Candle Eggs.

Do you know how to tell the quality of an egg without breaking the shell? All you need is a pasteboard box with a hole 1 1/4 inches in diameter, a strong light such as is furnished by a lamp or an electric-light bulb, a dark room, and the egg. When the egg is held close against the hole the strong light renders its contents visible and its quality is indicated by the appearance of the yolk, the white and the air space at the blunt end. By comparing the egg with charts furnished by the United States Department of Agriculture in Department Bulletin 51, it is possible to learn the exact condition of an egg before it is broken.

Testing eggs by candling, as it is called, may not only be used by the housewife in obtaining fresh eggs for her table, but has also proved to be commercially practicable in preventing loss by separating for local consumption eggs that, because of cracks, wetness, incipient spoilage and other defects are likely to spoil in shipment. Such eggs are suitable for immediate use, but will not stand shipping.

Candling as near as possible to source of production will not only save transportation and storage charges for the farmers who wish to buy and sell on an accurate quality basis, but will prevent the loss

John Wanamaker, former postmaster general and department store head.

John Wanamaker, former postmaster general of the United States and owner of the department stores that bear his name, has just celebrated his eighty-fourth birthday. Wanamaker is just a year older than John D. Rockefeller, the oil king.

LEWIS TO RECOMMEND

U. S. PLAN BE REJECTED

(By the Associated Press)

WASHINGTON, July 14.—It became definitely known today that John L. Lewis, president of the union mine workers, and other national officers of the union who

have been negotiating with the government since President Harding offered arbitration to settle the coal strike are preparing to recommend to their associates in union control, that the government plan be rejected.

Set For SaturdaySheriff Is Killed
and Murderers Get
Away in Car Crash

(By the Associated Press)

TUCSON, Arizona, July 14.—Sheriff George White, of Santa Cruz county, was killed, and Manuel Martinez and Placido Silvas, convicted of murder, escaped last night when an automobile in which the prisoners were being taken to the state penitentiary at Florence overturned on the Nogales-Tucson highway near Continental, eighteen miles from here.

Scientists at a Wisconsin laboratory are developing a dairy cattle food from soft wood sawdust chemically treated.

A Tonic in Hot Weather

The weakening effect of the depressing heat lowers Vitality. GROVE'S TASTELESS CHILL TONIC Restores Energy, Strengthens and Fortifies the System to withstand the intense Summer heat. A big appetite and sparkling eyes are the best proof of its tonic value. You can soon feel its Strengthening, Invigorating Effect.

We Have The New July Victor Records

Look over this great list and note the selections you particularly want to hear. Chances are, you'll probably want to hear them all. We'll be glad to play them for you. Come early!
